What

AXUS is a software for travel planners and tour operators to create itineraries from a single source, quickly and with the appropriate CI look. AXUS is integrated with advatra. Please contact us for an AXUS integration.

> Every itinerary sent from advatra to AXUS will count as a "itinerary credit" on AXUS.
> You will see an overview over your credits directly on AXUS.

Create and edit

Itinerary export with AXUS:

1. Select the document (Offer or Confirmation) you want to export.
2. Select "Document - AXUS export" under "More" on the right.
