GDPR requests

Menu: CRM ? GDPR Requests

What

There is a function to black out all personal data. This is important because the EU carries out spot checks to ensure compliance with the GDPR - General Data Protection Regulation.

Create

Create a new GDPR Request and choose between the two types:

Delete
All data of this contact will be deleted.

> This **can not** be undone!

Excerpt
Only an excerpt of all connected data that is linked to this contact in advatra. You can export this excerpt with the "Print as PDF" function.
